This certificate constitutes evidence of prior creation. It establishes that the named creator produced the identified work at the stated time, proven by a deterministic cryptographic fingerprint that is tamper-evident, irreversible, and unique. This is not a registration of intellectual property rights — it is proof of the fact from which such rights arise. Under the Berne Convention, the Copyright, Designs and Patents Act 1988, and applicable international intellectual property law, rights vest in the creator at the moment of creation. This certificate proves that moment.

The Anatomy of Your Bind

Every number below is computed from your creation's own structure.

QIP-BIND-2026-0000116

THE GOVERNING EQUATION

$$\tau + \tau^2 = 1$$

One algebraic identity governs the whole certificate. τ = 0.618… is the unique number whose square completes it to one — the golden proportion from which every angle, weight, and ratio in your bind is derived.

IDEA UNITS

383,455

τ × [TOTAL × CONNECTIONS] + φ × [(ORIGINATION + DEVELOPMENT) × COMPLETION × (DISTINCTION + COHERENCE)]

A count of the distinct structural units measured in your creation — not a price, not an opinion.

Every number below is computed from your creation's own structure.

QIP-BIND-2026-0000121

THE GOVERNING EQUATION

$$\tau + \tau^2 = 1$$

One algebraic identity governs the whole certificate. τ = 0.618… is the unique number whose square completes it to one — the golden proportion from which every angle, weight, and ratio in your bind is derived.

IDEA UNITS

7,637,714

τ × [TOTAL × CONNECTIONS] + φ × [(ORIGINATION + DEVELOPMENT) × COMPLETION × (DISTINCTION + COHERENCE)]

The Anatomy of Your Bind

Every number below is computed from your creation's own structure.

QIP-BIND-2026-0000126

THE GOVERNING EQUATION

$$\tau + \tau^2 = 1$$

One algebraic identity governs the whole certificate. τ = 0.618… is the unique number whose square completes it to one — the golden proportion from which every angle, weight, and ratio in your bind is derived.

IDEA UNITS

50,471,236

τ × [TOTAL × CONNECTIONS] + φ × [(ORIGINATION + DEVELOPMENT) × COMPLETION × (DISTINCTION + COHERENCE)]

A count of the distinct structural units measured in your creation — not a price, not an opinion.

How to read this page. These eight properties describe the bond as an instrument, not the work it certifies — the nine QIP® Vortex metrics on the preceding pages measure the work itself. Every value is derived from data already sealed at Genesis; none requires the original file. **τ-Fidelity** and **Asset Weight** run 0–1. **Mind Identity Asset** is creator-level and spans every work you have certified. **Genesis Priority** is shown as of 10 October 2026 and grows with time. **Quantum Immunity** is a property of the architecture, identical for every bond.
